***Purpose of Effort in 2021***

The overall purpose of our work in this phase, so that we can contribute our collective voice and influence in service of making oral health more affordable and accessible to all, is:

- to continue monitoring the impacts of COVID-19 on safety, infection control, and access, and to discuss action steps as necessary; and
- to learn more about the work already underway in each of the prioritized advocacy strategies.

***Desired Outcomes***

*By the end of this meeting, we will have:*

- An awareness of the Biden administration's most recent appointees and health care related actions
- An update on COVID-19: vaccine rollout, dental team involvement, school-based guidelines
- Agreement on the proposed PRW statement regarding the role of dental professionals in combatting COVID-19
