

Oral Health System: Pandemic Response Meeting IV
Virtual Meeting
June 17, 2020
2:30-4:00pm ET

<https://us02web.zoom.us/j/89949086625?pwd=Z3ZrOWxGMTZ2TDZ0SkprbkFMdkpQZz09>

Purpose of the Effort

To gather key oral health system stakeholders in order to deepen relationships, build alignment, and develop priorities that will guide our individual, organizational, and collaborative action in creating economic and point of access stability in the oral health care system during the COVID-19 pandemic; and to begin to envision what the post-pandemic oral health care system will look like.

Purpose of the Meeting

To deepen our awareness of the inequities in our health care system and how COVID-19 has exacerbated these inequities, and to generate ideas for communicating OSAP's document: *Best Practices for Infection Control in Dental Settings* across all 50 states.

Desired Outcomes

By the end of this meeting, we will have:

- A shared appreciation for how the current national conversation about policing and race connects to our work in oral health and health equity
- A shared understanding of OSAP's *Best Practices for Infection Control in Dental Settings*, and feedback on the document to share with OSAP
- A list of ideas for how to communicate and distribute OSAP's *Best Practices for Infection Control in Dental Settings* document across all 50 states
- A shared understanding of the National Association of Dental Boards' communication strategy regarding safety guidelines
- Agreement on next steps to convene a Communications Working Group to develop a plan for distributing best practices, information, and guidelines across the country
