

Oral Health System: Pandemic Response
Virtual Meeting VI
July 29, 2020
4:00-5:30pm EDT

Purpose of the Effort

To gather key oral health system stakeholders to deepen relationships, build alignment, and develop priorities that will guide our individual, organizational, and collaborative action in creating economic and point of access stability in the oral health care system; and to begin to envision what the post-pandemic oral health care system will look like.

Purpose of the Meeting

To build alignment on the timing for a public messaging campaign, on ideas to lessen disparities during the pandemic, and on the work of envisioning what the post-pandemic oral health care system will look like.

Desired Outcomes

By the end of this meeting, we will have:

- An update on developing a public messaging campaign and on OSAP's consumer and school-based settings safety checklists
- A list of actions to take to address the system's inequities now during the pandemic
- An awareness of the transformational moment provided to the field by the pandemic, and the need for this group to take up the work of change and envisioning a more equitable future
- An agreement on next steps
