

Oral Health System: Pandemic Response
Virtual Meeting
April 30, 2020
3:00-4:30pm EDT

Purpose of the Effort

To gather key stakeholders within the oral health system to deepen relationships, build alignment, and develop priorities that will guide our individual, organizational, and collaborative action in order to create economic and point of access stability in the oral health care system and to begin to envision what the post-pandemic oral healthcare stem will look like.

Purpose of the Meeting

To review and deepen our understanding of the priorities and actions that have emerged and to build alignment on a path forward - both in the immediate and near term

Desired Outcomes

By the end of this meeting, we will have:

- A shared understanding of the evolution of the crisis and shifts in thinking since we last met - overall and within our organizations - in the COVID-19 pandemic context
- A shared understanding of the current priorities, including urgent and immediate action steps and who should implement those action steps
- Agreement on next steps
