### ***Purpose of the Effort***

Our overall purpose is to contribute our collective voice and influence toward making oral health more affordable and accessible to all. In 2022, we will:

1. Continue to monitor and respond, as appropriate, to the impacts of COVID-19 in the oral health field (integral to workforce)
2. Leverage the Oral Health in America: Advances & Challenges report to raise the importance of oral health to overall health among key stakeholders
3. Discuss oral health inequities and explore how to work together to achieve/advance health equity
4. Promote multi-directional integration of oral health and overall health.

### **Purpose of the Meeting**

To continue operationalizing our shared work in 2022, to understand current Congressional legislation, its impact on oral health, and upcoming issues, progress on the PRW's collective action efforts, and strengthen relationships.

### **Desired Outcomes**
